Corn Starch Food Containers

PLALEAVES corn starch food containers take corn starch as the main raw material, which can be naturally decomposed in the natural environment by microorganisms and enzymes, it also can be degraded by commercial composting.

It has smooth section, natural primary color, thickening and compression resistance, microwaveable and refrigerable, no peculiar smell, which can meet the requirements of your daily use and national "Plastic Reduction Policy".

PLALEAVES corn starch food containers have various capacities and specifications for your choice. Additionally, PLALEAVES corn starch food containers are clean and hygienic, sturdy and leakproof, water and oil resistant.

XL4121022512
